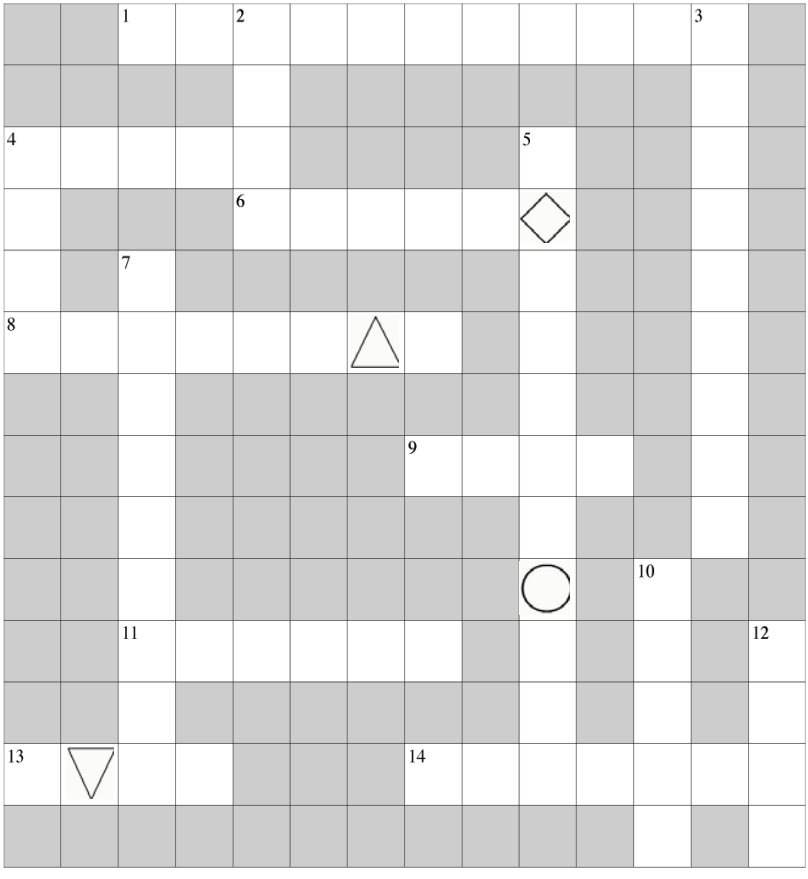
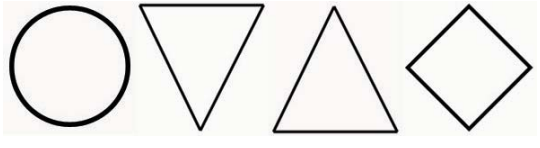
12. Store grain in this tall round building.



CODE:



Directions:
Fill in the missing numbers. All of the missing numbers follow these rules.

1. The missing numbers are integers between 0 and 9.
2. In each row (across) the numbers total the number listed to the right.
3. In each column (up and down) the numbers total the number listed at the bottom.
4. The diagonals from the upper left to the lower right and from lower left to upper right total the number listed diagonally from the end.

When you've finished the puzzle, copy the numbers in the shapes to the matching shapes at the bottom of the page for the code to this mission.

CODE: ◇ ▽ ○ △

Directions:
In four steps change the word "MAPS" to "FILE." In each step you can only change one letter of the word. Choose from the list of words below to fill in the blanks as you work your way through this puzzle.

Fill in all the blanks correctly and there will be one word remaining. That word is your code for this mission.

MOPS

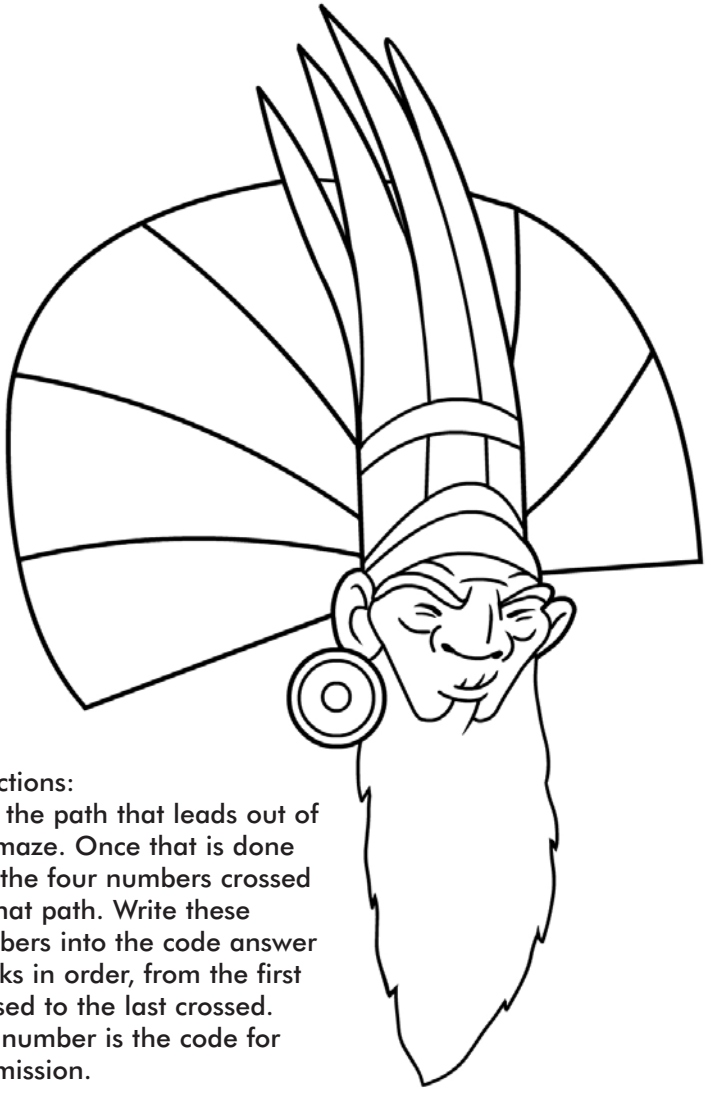
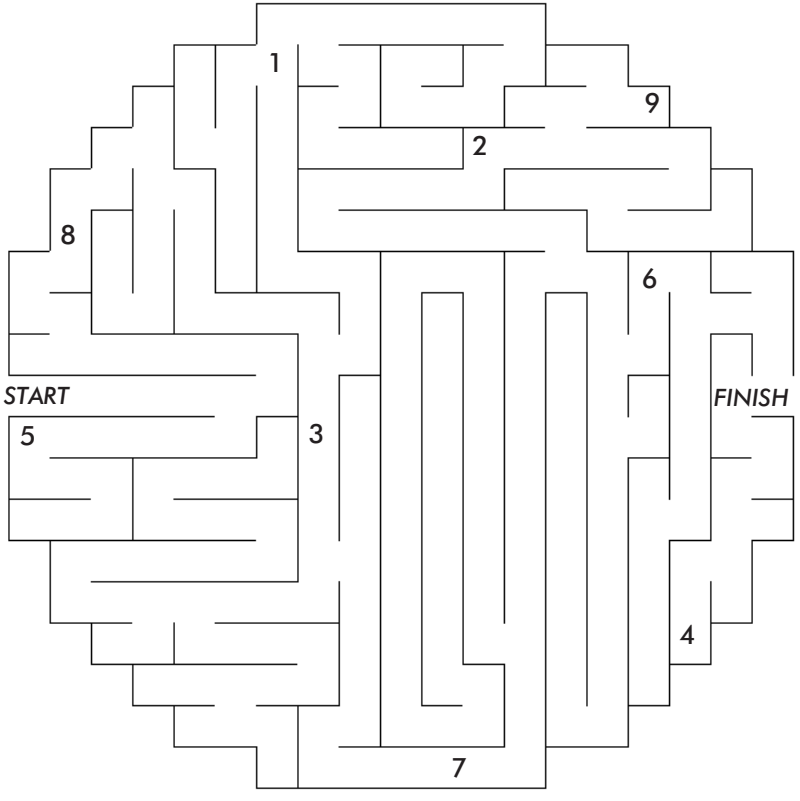
M	A	P	S
F	I	L	E

CODE: ____ ____ ____ ____



Directions:
Find the path that leads out of the maze. Once that is done find the four numbers crossed on that path. Write these numbers into the code answer blanks in order, from the first crossed to the last crossed. This number is the code for the mission.



CODE: ____ ____ ____ ____

Directions:
All of the letters to this secret message have fallen into the letter list below it. Fill in the blanks using those letters.

The letters for column 1 of the puzzle are in column 1 of the letter list. Each letter is only used once so mark them off as you use them. A few letters have been provided for you.

Decode the message correctly, then copy the letters in the squares containing shapes to the matching shapes at the bottom of the page. This is the code for the mission.

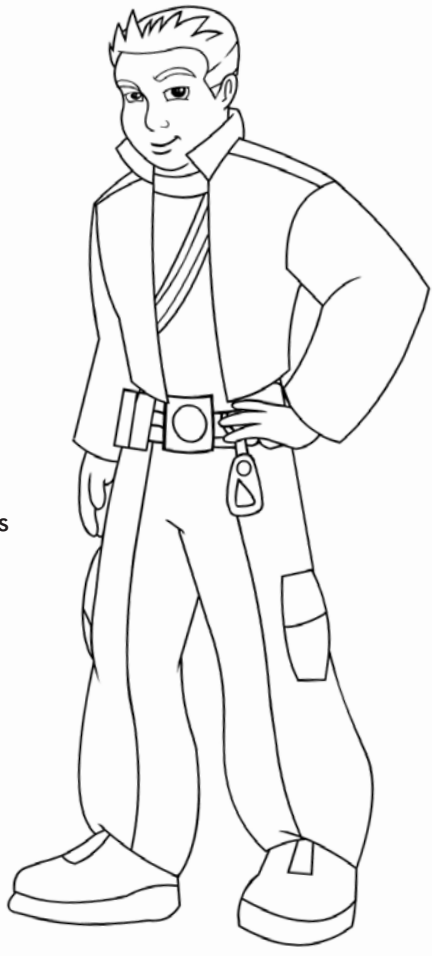
O	Y	E	W	I	G	E	D	V	I	D	Y
A	N	T	S	E	I	R	S	S	E	L	L

CODE: ○ ◇ N △

Directions:
Use the numbers 1 through 9 to complete the equations on the next page. Each number is used only once and the numbers 1, 3, 5 and 7 have been given as clues to the solution. Each row and each column is a math equation. **Remember that multiplication and division are always performed before addition or subtraction.**

When you have filled in all the numbers correctly, copy the numbers from the squares containing shapes to the matching shapes at the bottom of the page. This is the code for the mission.



3	-	◯	-	1	0
X	■	-	■	X	
7	+	◇	+	△	22

CODE:

Directions:
Unscramble each of the clue words. Next, take the letters in the circle blocks and use those letters to unscramble the final word.

When you have filled in all the words, copy the letters from the squares containing shapes on the puzzles to the matching shapes at the bottom of the page. This is the code for the mission.

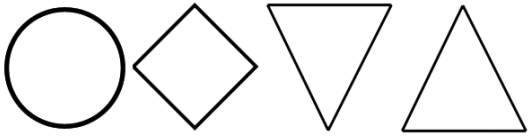
CODE:



Directions:
Use the table to the right to give number values to all of the words in the three problems on the following page. Take the assigned value for each of the letters of each word and add them together, then answer the questions.

Example: plane is equal to 1 (p) + 2 (l) + 1 (a) + 4 (n) + 5 (e)
or 1 + 2 + 1+ 4 + 5 = 13

When you have finished, use the word which has the smallest numeric value as your code.

A=1	B=2	C=3	D=4	E=5	F=1	G=2
H=3	I=4	J=5	K=1	L=2	M=3	N=4
O=5	P=1	Q=2	R=3	S=4	T=5	U=1
	V=2	W=3	X=4	Y=5	Z=1	

1. What is the difference between **feel** and **fall**? _____
f e e l = _____ f a l l = _____

2. How much are these words worth?
p o u n d =_____
c e n t s = _____
c o i n s = _____
Now write these three words in order from least to greatest.
_____
_____
_____

3. Are **fast** and **quick** the same? Circle one: YES NO
f a s t = _____ q u i c k = _____

CODE: _____ _____ _____ _____

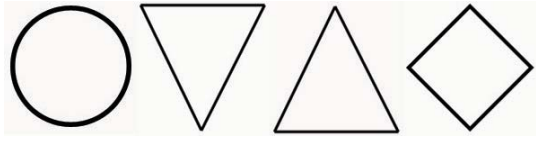
Directions:
Perform the math operations for each of the following problems from left to right. Write the final answer for that set of problems in the blank space to the right. That number is equal to the letter to the right of it. Use these letters to decode the word on the next page.

When you have filled in the word correctly, copy the letters from the squares containing shapes on the puzzles to the matching shapes at the bottom of the page. This is the code for the mission.

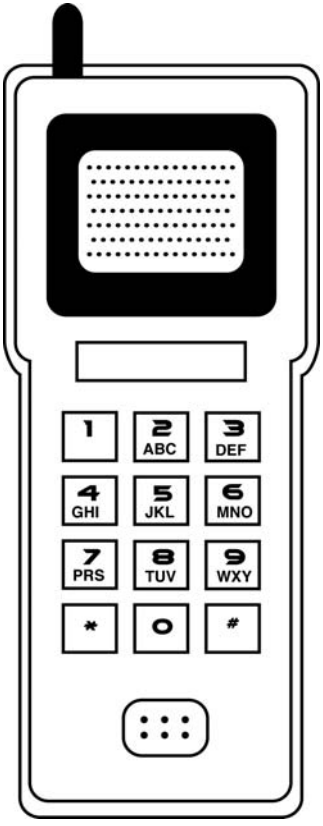
39	+31	-55	-12	+24	+19	= ___	= E
93	-85	+15	+35	-7	+26	= ___	= G
52	+20	-49	-21	+31	-13	= ___	= T
21	-9	+33	-12	+61	-25	= ___	= N
96	-75	+32	+45	-60	+18	= ___	= A

56	77	46	69	20

CODE:



Directions:
Use the phone key pad to break this code. The numbers of the phone pad each have letters assigned to them. 2 has the letters A, B and C. The number before the period indicates the number on the pad. The number after the period tells which of the three letters assigned to that number to use. Example: 2.1=A, 2.2=B and 2.3=C.



When all the blanks are filled in, copy the numbers from the squares with shapes in them to the matching shapes at the bottom of the page. This is the code for the mission.

3.3, 5.3, 4.3, 4.1, 4.2, 8.1

CODE:

Directions:
Each of the letter groups on the opposite page is actually two related words that have been "mingled" together. The letters of each of the words are in the correct order. Use the clue to figure out which letters go with which words. The word that is left is your answer. Example: *Remove the mammal but leave the bird*. WDOULCFK becomes WDØULCFK; then take out WOLF which leaves DUCK.

Take the last letter of each of your answers and write them in order in the spaces at the bottom of the page to reveal the code for this mission.

1. *Remove the cipher but leave what it forms.*

COWODRED _____

2. *Remove the trail but leave what is done on it.*

HIPATKEH _____

3. *Remove what is dug but leave the animal.*

DMOILRET _____

4. *Remove its home but leave the animal.*

BCAEAVER _____

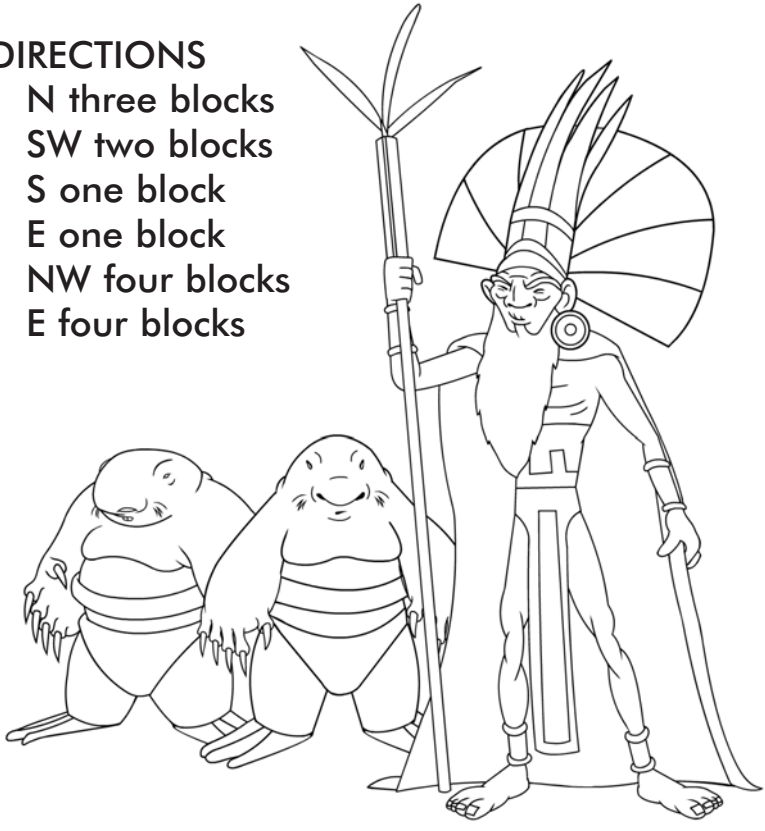
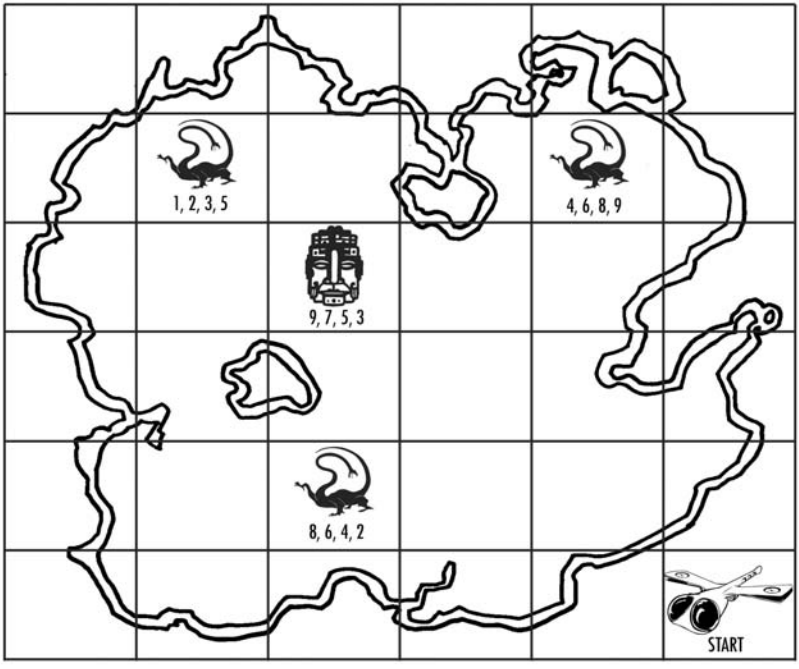
Directions:
Find the treasure to get the correct code for this mission.

Start at the DragonSpy and use the compass to make sure you are moving in the right direction. Follow the directions below and when you have completed them you will be at the correct marker. The four digit number below the marker is the code for this mission!

DIRECTIONS

N three blocks
SW two blocks
S one block
E one block
NW four blocks
E four blocks





CODE: _____ _____ _____ _____

Directions:
Circle the words hidden in the letters to the right. When you have found all of the words, start at the upper left and copy the letters that have not been used into the spaces for the "secret message." There will be extra letters left over.

When all the blanks are filled in, copy the numbers from the squares with shapes in them to the matching shapes at the bottom of the page. This is the code for the mission.

Directions:
Trial and error and pattern recognition will help you break open this final mission. On the following page are two encrypted (coded) messages using numbers to represent letters. Decipher the messages using the four letter clues that are given. Each number (1-26) will stand for only one letter. For example 9=R.

Once you have decoded the messages, use the code key to decipher the code for this mission at the bottom of the next page.
